## **ABOUT US**

### **Redefining modern homes with innovation and excellence**

Havells is at the forefront of transforming modern living spaces by offering innovative solutions that elevate everyday experiences. With a deep understanding of consumer needs, the company has expanded its footprint across every aspect of home life, creating environments that are not only functional but also comfortable, stylish, and future-ready.

To make these solutions accessible, Havells leverages an extensive distribution network encompassing 18,000 dealers, over 1,000 exclusive brand stores, intensifying presence in modern retail, e-commerce and quick commerce.

The company's portfolio includes power brands like Havells, Havells Crabtree, Lloyd, REO, Havells Studio and Standard, each designed to cater to the unique demands of today's consumers.

Anchored in the 'Make in India' initiative, Havells operates 16 cutting-edge manufacturing facilities across India, producing 90% of its products in-house. At the forefront of Havells product evolution lies its Customer Experience & Designs (CXD) Studio, where creativity and user-centric design converge.

This is complemented by its Centre for Research & Innovation (CRI), supported by four advanced R&D centres, enabling Havells to deliver functional and visually compelling products consistently.

Driven by a commitment to innovation, quality, and design, the company also upholds sustainable practices throughout its operations, including eco-friendly manufacturing processes and energy efficient product design, contributing to a greener and more sustainable future.

# MAKE IN INDIA PHILOSOPHY

At Havells, we aim to impact consumers' lives through high-quality, innovative products that meet world-class standards. Upholding the 'Make in India' philosophy, over 95% of our products, including Lloyd Air Conditioners, are manufactured in-house with a focus on productivity, social, economic, and environmental sustainability. Havells is a Water-Positive organization with four Zero-Water Discharge facilities, recycling water for manufacturing and supplying purified water to nearby villages. Leveraging advanced technology and automation, we emphasize energy and water conservation. Through total quality management, we enhance product quality while recycling and reusing waste materials. methodology of total quality management to improve product quality while recycling and reusing our waste materials

## Step into the future of manufacturing

Lloyd has carved a niche across India with its impeccable quality standards along with unmatched Product, service and warranty. We at Lloyd have always believed that each of our products is a bundle of joy delivering happiness to homes. This has helped us earn the confidence and smiles of over 5 million customers. Owing to this trust and love, we have been constantly evolving with a bevy of new-age innovations and smarter solutions. Lloyd is being one of the pioneers in the AC category. As we are poised to fulfill our promise of making homes happier, we bring forth our range of technologically advanced and aesthetically designed ensemble of new-age Air Conditioners, Washing Machine, Refrigerators and LED TV.

Step into the future of Washing Machine manufacturing with our innovative approach. Established in 2019, we've grown into a leader in the industry. Our commitment to cutting – edge technology is evident in our sprawling 104 acre industrial park equipped with SAP and MES system. Across two factories at Ghiloth and Sricity with more than 6 production lines, we boast an annual production capacity exceeding 3 million units per annum.

We have in-house world-class manufacturing facility with Robotics & Automation.

A powerhouse of innovation, our R&D teams with qualified and highly experienced engineers specialising in various fields, even PhD qualified talent leading the charge. We are designing the product in house with software's like Creo, Unigraphics, Solid Works etc.

Designers are simulating the product during designing with the help of software's like Hyper Mesh, Ansys, Mold Flow Analysis, CFD etc.

A separate team of experts are working on innovation and futuristic projects.

Our commitment to quality extends beyond the factory floor, with a specialised 2500+ square meter national testing laboratory at Noida/ Ghiloth & Sricity to ensure every product meets the highest standards with NABL lab facility.

We have separate NVH lab for Noise / Vibration of the products with industry best specialised engineers.

# LLOYD Tru Series Front Load Fully Automatic Washing Machines

## Powerful Stain Master Technology & Auto Dosage Convenience

The Tru Series delivers exceptional care with advanced Stain Master technology, tackling tough stains from food, drinks, sports, and beauty products. Auto Dos ensures hassle-free washing by automatically dispensing the right amount of detergent for every load.

Lloyd Tru Series – Intelligent washing, effortless care.

### Auto Dose

Auto dosing automatically dispenses the right liquid detergent amount, ensuring optimal cleaning without manual measuring.

### Saves Efforts

Auto Dosing reduces waste, prevents clogs, and lowers maintenance costs—saving us both supplies and money.

### Full Touch Panel:

Modern Convenience The sleek, intuitive touch panel offers easy control with a tap, replacing physical buttons.

### Steam Wash:

Steam washing relaxes fibers, removes wrinkles, boosts detergent effectiveness, and sanitizes for a deeper clean.

## Consumer Benefits of Steam Wash:

Steam loosens tough stains naturally, making it ideal for the dirt extraction.

Steam relaxes fibers, reducing wrinkles and saving ironing time while extending clothing life.

Steam cleans powerfully yet gently, preserving delicate fabrics longer.

**Enhanced  
Stain Removal**

**Allergy-Friendly**

**Wrinkle  
Reduction**

**Odour  
Removal**

**Gentle on  
Fabrics**

Steam kills dust mites, bacteria, and allergens for an allergy-friendly wash.

Steam removes trapped odors, keeping clothes fresh and clean.

## BLDC Inverter Motor:

The Smart Choice for Energy, Durability and Quiet Operation

The BLDC inverter motor is a revolutionary technology designed to enhance the performance of appliances. Known for its energy efficiency, it minimizes power consumption, helping you save on electricity bills.

### Drum Clean:

Drum Clean feature in front load washing machines is designed to maintain the cleanliness and hygiene of the drum. It removes built-up detergent residue, dirt, and bacteria that can accumulate over time, ensuring your machine operates at its best.

**Boost Wash:**  
This technology supercharges water pressure for deeper cleaning, slashing and saving wash time while delivering spotless results.

**Stain Master:**

Helps in removing all type of stains – Food, Drinks, Sports and Fitness Outdoors & workers, Health and Beauty.

● **Big LED Display**  
A large, user-friendly LED screen shows settings, time, and key info for effortless operation.

● **Chrome Door Black Cover Door**  
The sleek black ribbon door adds a modern, stylish touch.

● **Auto Restart**  
Resumes the wash cycle after a power cut, eliminating manual restarts.

# Intelli Steam

Your clothes deserve better care! Lloyd Washing Machines with Steam Wash elevate hygiene by deep-cleaning fabric, removing stubborn dirt, and killing bacteria with high-temperature steam. Experience fresher, cleaner laundry and ensure your family's well-being.

## Steam Refresh

Reduces Wrinkle and Odour

## Softener

Gentle Care, Softer Clothes

### BLDC Inverter Motor:

Lloyd Intelli Steam series comes with BLDC Inverter motor with huge power saving of 30%. Don't worry about the electricity bill, save power and enjoy heavenly silence with BLDC Inverter motor technology.

### Full Touch Panel:

Modern Convenience at Your Fingertips The Full Touch Panel feature offers a sleek and intuitive interface for easy appliance control. With a responsive, user-friendly design, it allows you to access all settings with just a tap, eliminating the need for physical buttons.

### Features:

- **Intellivents:** Intelligent washing speed with specially designed vents for enhanced tumble action and superior wash performance.
- **My Cycle:** Save your favorite washing cycle for effortless use anytime.
- **Smart Stain Remover:** Tailor settings to tackle stains with ease—choose High, Medium or Low dirt levels.
- **Super Big Door:** Spacious, luxurious door design for hassle-free washing of heavy loads and large garments.
- **Baby Care:** Extended hot water cycle gently cleans baby clothes, removing bacteria and detergent traces for sensitive skin.

# Jazz+/Aquamatic+

## Style Meets Innovation:

Lloyd combines aesthetics with cutting-edge technology to deliver an exceptional experience. Each washing machine undergoes 50+ quality checks for hassle-free use. The Jazz range blends style with consumer insights, addressing water pressure challenges and ensuring top-notch washing performance. Certified 5-Star by BEE India.

### Aqua Save Wash:

With Aqua Save technology, consumers can save upto 50 litres of water equivalent to 2 buckets of water.

### 8 *i*-Sense Technology:

Lloyd Jazz Series has In-built sensors which are activated ensuring best washing performance, safety and durability.

### Vented Drying:

In-built Vented drying. Get rid of odour and moisture after spin cycle. Faster drying with air circulation.

### Toughened Glass Lid:

Designed for Strength and Durability. Toughened Glass Lids can withstand a weight of up to 90 kg

### Metallic Arc Handle:

Stylish & Irresistible. Created for consumer convenience. Easy to pull the top lid while loading laundry in your washing machine.

**Germi Kill Wash:**

Enjoy hygienic wash every time with the power of N9 Anti-Bacteria additives. N9 is a high-grade silver ion that stops bacteria growth, hence 99% Bacteria Free Wash.

**Swift Wash:**

This program cleans clothes as fast as 15 min only! Enjoy quick wash for daily wear and delicate clothes.

**Child Lock:**

Helps protect children from accidentally getting hurt when the washing machine is powered on.

**5 Star Rating:**

BEE (Bureau of Energy Efficiency) certified 5 Star model consumes minimum energy and water with the best wash performance.

**Heavy Wash:**

Designed for tough stains and soiled clothes, this cycle delivers a powerful clean with optimal water and spin action.

## Features:

### Near Zero Pressure Wash

Low Water Pressure is a common problem in India. Now enjoy convenience with Near Zero Pressure Wash technology and save cost for additional water booster.

### **Toughened Glass Lids with Soft Closing\*:**

Designed for safety and convenience, the toughened glass lids ensure durability while preventing accidental damage. The soft-closing mechanism allows for smooth, silent operation, eliminating the risk of sudden slams. This feature enhances user safety, prevents hand injuries, and adds to the overall longevity of the washing machine.

### **Double-Layered Lid\*:**

The sturdy double-layered lids come with premium toughened glass and Hydraulic Damper action.

### **5 Wash Program\*:**

5 Wash Program for every type of laundry – Delicate, Gentle, Normal and Special stain removal programs – Intense & Ultra+.

### **Special Detergent Mix Cycle\*:**

Ensures faster detergent dissolution with a high-speed pulsator movement for better stain removal.

### **360° Water Shower\*:**

360° water shower gives better rinsing and Maximum extraction of detergent from the clothes.

### **Anti-Skid Big Wheels\*:**

Large wheels enable easy movement of bulky semi-automatic machines. The anti-skid design reduces vibration during spinning.

\*Features in select models only.

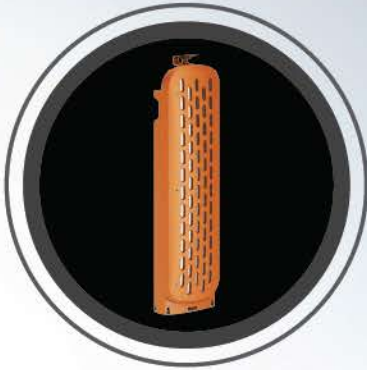

### Memory Backup\*:

Electro-Mechanical wash timer enables the machine to start the washing cycle exactly from where it had stopped after a power cut.

### Aqua Balancer:

Balances the movement of spin tub resulting in better spinning & less vibration.

### Stainless Steel Mesh Filter\*:

Durable Stainless Steel (Higher grade-SS304) mesh ensures better lint collection because the filter is positioned at the bottom of the tub.

Applicable in elante XL, Grande, elante pluss & Aria.

### 2 Way Magic Filter\*:

A uniquely designed magic filter has inlet valves on the left and right walls that ensure maximum lint collection.

Applicable in elante.

### F-shield Motor:

Built to last, the motor is protected with F-Shield coating to resist moisture and corrosion ensuring long-term performance and reliability.

### Active Soak\*:

Pulsator moves gently in detergent water which helps in loosening tough stains and removing the dirt.
